The cost of inventories includes expenditure incurred for acquiring the inventories, production or conversion costs and other costs in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Raw materials in transit are valued at cost. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses. The weighted average cost method has been used to determine the value of inventory.

### 3.11 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset to one party and a financial liability or equity instrument to another party.

#### i) Financial Assets::

Financial assets of the company include cash and cash equivalent, trade and other receivables, other long term receivables and deposits. The company initially recognizes the financial assets when and only when the company becomes a party to the contractual provisions of the transaction. All other financial assets are recognized initially on the date at which the company becomes a party to the contractual provisions of the transactions. The company derecognizes the financial asset when and only when the contractual rights or probabilities of receiving the flows from the asset expire or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

#### i.(a) Accounts Receivables:

These are carried at original invoice amount. This considered good and collectable, and therefore, no amount was written off as bad debt and no debt was considered doubtful to provide for.

#### i.(b) Cash and Cash Equivalents:

According to IAS 7 "Statement of Cash Flows", cash comprises cash in hand and demand deposit and, cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. IAS 1 "Presentation of Financial Statements" provides that Cash and Cash Equivalents are not restricted in use. Considering the provisions of IAS 7 and IAS 1 cash in hand and bank balances have been considered as cash and cash equivalents.

### 3.12 Impairment:

#### i. Financial Assets

Trade receivable is assessed at each reporting date to determine whether there is objective evidence that it is impaired. Trade receivable is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the assets and that the loss had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

#### ii. Non-Financial Assets

An asset is impaired when its carrying amount exceeds its recoverable amount. The company assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Carrying amount of the assets is reduced to its recoverable amount by recognizing an impairment loss if the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognized immediately in profit or loss unless the asset is carried at revalued amount. Any impairment loss of a revalued asset shall be treated as a revaluation decrease.

### 3.13 Taxation

Income tax expense comprises of current and deferred taxes. It is recognized in the Statement of Comprehensive Income and accounted for in accordance with the requirements of IAS 12: Income Taxes.

#### i. Current Taxation

The tax currently payable is based on the Taxable profit for the year and any adjustment to tax payable in respect of previous year. The company is a Publicly Traded Company. As per the Income Tax Ordinance, 1984 the rate of taxation applied at the rate of 25.00%.

#### ii. Deferred Taxation

The company does not require to compute deferred tax on PPE, because it charges depreciation as per method, conditions and rate/s as specified in the 3<sup>rd</sup> Schedule of the Income Tax Ordinance, 1984. Depreciation has been charged on all items of Fixed Assets except for Land and Land Development on **Reducing Balance Method**.
